name of Reynolds. It is reported that Mr. Olney will go to Paris early in the new year to fill a government position.

The funeral of W. F. F. Winter's child was held yesterday afternoon from St. Paul's Lutheran church. A novel and most appropriate and interesting feature of the service was the music, which was furnished by 20 little girls of the parochial school. It was a feature that appealed strongly to the hearts of all in attendance.

The reception given yesterday afternoon at the home of Rev. J. J. Parker was attended by a large number of that gentleman's friends and members of his congregation, and proved to be a very pleasant affair. The guests were served with choice refreshments, among which was cheese of a fine quality brought from England by Mr. Parker.

Six stacks of hay in the fields of John Koenigstein and Mr. Krusen, just west of the city, were burned last night, destroying between 60 and 70 tons of hay. The burning stacks made a beautiful sight, although rather expensive to the owners of the hay. It is claimed that sparks from the incoming Union Pacific freight yesterday afternoon started the fire.

The railroads have granted a rate of one and a third fair for the round trip to the retail liquor dealers who hold their semi-annual state convention in this city next Tuesday and it is expected that a large number of the members will take advantage of the rate and be in attendance. The arrangements by the local dealers for their entertainment are about complete and a good time is anticipated.

It is understood that a number of grocery peddlers are canvassing in the neighborhood tributary to Norfolk. Before giving them an order people should be certain that they are getting an inducement to do so otherwise they are sending money out of the country that will be an indirect injury to themselves, because it needs no argument to show that the more money kept in circulation in a neighborhood, the better it is for all people concerned; and sometimes if a person can make a few cents by ordering from an out of town firm it is an indiscretion and shows poor business judgment to do so. When presented with a proposition having this end in sight it would be the surest business policy to first understand whether a saving is really being made and next as to whether it is saving of permanent benefit. When solicited by these peddlers the wise thing to do would be to request a price list of them and ask for time to consider their proposition, in the meantime comparing prices with the home merchant and giving him a show for the business.

THE NEWS was promised an abstract of the official count of the vote of the county by last night's mail in time for publication today but its hopes have failed to materialize. It is understood, however, that the results heretofore published have not been materially changed. The vote on treasurer was very close, but the official count gives Mr. Miles, republican, a majority of five votes over Mr. Brechler, fusion. It is understood that the close vote has induced Mr. Brechler's friends to start rumors of a contest, but it is likely that if this is done, Mr. Miles' election cannot be overthrown. In the unofficial returns as published by this paper, Mr. Bauch was given 157 in Madison precinct and Mr. Barney 157. The facts are that the former received 232 in that precinct, running 18 ahead of his ticket. Mr. Barney received 157. This gave Bauch a majority of 75 in the precinct and 185 in the county. It is likewise understood that both Dr. Tanner for coronor and Mr. Lowe for surveyor, republicans, were elected by safe majorities, giving the republican party control of six of the nine county offices. The result, barring the extraordinary divergence of votes on some of the offices, is very satisfactory to the republicans. It is probable that the official table may be published tomorrow.

The Krug beer vault, north of the Creighton depot, is being repaired. New timbers are being placed under it, the interior is being improved and other changes are being made preparatory to getting in the winter's supply of ice.

The first football game of the season in Norfolk is being played this afternoon on the Olney grounds between teams of the high school and grammar school. The boys have been practicing for a week or more and it is presumed that a warm game will be the result.

Rev. G. H. Main is having a directory of the M. E. church printed, which will give the names of the members of the church, combined with much other valuable information. It will be a neat book and will find a welcome place in many an interested household.

Cards are out announcing the coming wedding of Jessie Hazel, daughter of Mr. and Mrs. I. G. Westervelt, to Mr. Swithen Robert Reynolds, which will take place at the residence of the bride's parents on south Second street, Wednesday, November 22, at 12 o'clock, noon.

Announcements have been issued of the marriage of Mr. C. M. Hartman and Miss Lizzie Fischer, which will take place at the Pacific hotel on the evening of Wednesday, November 22. Mr. Hartman is a brakeman on the M. & O. railroad, and the couple will make their home in Sioux City.

Newman Grove Herald: The St. Edward flouring mill which went up in smoke last week was valued at \$30,000 and was insured for only \$5,500. The frame was erected of hard wood, hauled from the Pawnee Indian reservation in 1872. It is a serious loss to the business interests of St. Edward as well as the owner, A. D. Warner.

The time card of the F. E. & M. V. is being changed in style and the next one issued will be in pamphlet form, much

neater than the old blanket form, and from which information desired can be more easily secured than from the old one. It is probable that the new card will be issued next week, to take effect Sunday, November 18.

Curley Bennett, a lineman with the Nebraska Telephone company, was badly cut on the face by the breaking of a wire trimmer. He was working a short distance south of Waverlyville with the gang who are repairing the telephone line between this place and Madison, when the accident occurred. The knife of the trimmer struck him across the cheek, laying it open for several inches clear to the bone. Dr. Holden was called and sewed up the wound. The young man will be brought to town this afternoon and placed in Dr. Holden's sanitarium until the wound heals. He will in all probability wear a mark of the accident through life.

The meeting of the public library association last evening was not so well attended as it should have been. Mayor Simpson, who has been the prime mover in this enterprise, reported that he had succeeded in securing the interest of the ladies in the project, which will go a long way toward making it a success. From the partial canvass that has been made it was reported that there are nearly \$300 in sight and that books to an equal value had been offered. When the canvass is completed, the mayor has no doubt that the amount needed will have been secured. An adjournment was taken, the association to meet again on call of the chairman of the finance committee.

Much interest among astronomers is evidenced in the promised display of meteors on Tuesday and Wednesday nights of next week. According to all predictions the display promises to be of unusual brilliance and the number of meteors will be large. The department of astronomy of the university of California proposes to take careful observations of the phenomena and secure photographs and descriptions of interest to the general public. Meantime it will furnish the young man and his best girl a valid excuse for observing unusually late hours.

Arthur Bryant, 17 years old, whose mother is a cousin of Mrs. Grover Cleveland, was killed by the cars at Tekamah last night. He boarded a fast train on the Omaha road as it was pulling out of the station, and after riding a short distance he attempted to alight, but missed his footing and fell under the wheels. The boy's body was crushed and mangled beyond recognition and strewn along the railroad track for six or seven miles. This sort of an accident is but the logical outcome of the practice boys have in nearly every town of catching on to moving trains. The practice is in vogue in Norfolk to a considerable extent, and railroad men seem to be unable to prevent it. Its continuation means that it will be necessary to report a similar accident here sooner or later.

What is believed to have been a plot for a jail delivery from the county jail at Neligh was frustrated by the vigilance of Sheriff Brainard. About 11 o'clock Thursday morning a stranger was seen loitering outside the jail, holding a conversation with a prisoner named Wiley alias Wilkins Wilkinson, held for stealing thirty-four head of cattle from Huffman & Rollins. The officer seized the man, who gave a queer account of himself, and then located the man with whom he said he had driven to town. The stranger said his own name was Lowhead. The party to whom he directed the officers turned out to be Jack Martin, alias Lamb, alias Sullivan, an old offender. Lowhead was placed in jail and Sullivan was ordered to leave the county. A bottle of nitric acid was accidentally broken in the pocket of the man now in jail.

that place in consultation. He left on last evening's train.

Mrs. S. A. Barnes yesterday received from Mrs. C. E. Hazen who recently went to Oregon, a bouquet of beautiful flowers which are in full bloom now out of doors in that country. The family is very well pleased with their new home and are already erecting residences with a view to making it their permanent abiding place.

The brick laying force on the new opera house did not stop for Sunday yesterday, but continued to pile up the walls of the building. Mr. Warrant has every reason to believe that the present fine weather cannot continue much longer, and he believes that he should take advantage of every moment of it until the building is enclosed.

It is said that an average day's work for a brick mason is 2,500 brick. Some idea of the way the masons at work on the new opera house are making the "mort" fly may be gained when it is known that they are averaging 4,000 brick today. With such energy as this there isn't much room left for doubt that the building will be completed before the holidays.

The Norfolk district conference of the M. E. church will be held at Coleridge this week beginning today and continuing into Wednesday. Rev. G. H. Main of this city will preach the opening sermon at 7:30 this evening. Rev. Fletcher M. Sisson, the presiding elder, will also be

in attendance. The M. E. church at Coleridge was re-opened yesterday with Rev. Cyrus P. Cheeseman as pastor.

It is expected that there will be about 150 liquor dealers from all parts of the state in attendance at the meeting of the association here tomorrow and next day. While here these gentlemen will be entertained by the local dealers, who will take them to the sugar factory and other interesting points about the city. It is understood that the dealers will parade through the streets Wednesday afternoon at 2 o'clock.

Thirty men arrived in the city Saturday night to assist in constructing the telephone line between this city and Creighton. Poles are being erected north on Fourth street to the sugar factory and the work is progressing very satisfactorily. The metallic circuit between this city and Columbus has been completed and Norfolk is rapidly being connected by telephone with all important points in the state.

The gentlemen's club met at the home of Dr. Bear Saturday evening, and after playing a few games of duplicate whist, discussed the advisability of organizing a permanent club, one plan presented being to rent a club room down town where the meetings would be held, and another to hold the sessions at the homes of the members. The whole matter was left open until the next meeting, which will be held at the home of Burt Mapes on Wednesday evening, November 22.

A telegram was received yesterday

## ASK YOUR DOCTOR!

Ask your physician this question, "What is the one great remedy for consumption?" He will answer, "Cod-liver oil." Nine out of ten will answer the same way.

Yet when persons have consumption they loathe all fatty foods, yet fat is necessary for their recovery and they cannot take plain cod-liver oil. The plain oil disturbs the stomach and takes away the appetite. The disagreeable fishy odor and taste make it almost unendurable. What is to be done?

This question was answered when we first made

## SCOTT'S EMULSION

of Cod-Liver Oil with Hypophosphites. Although that was nearly twenty-five years ago, yet it stands alone today the one great remedy for all affections of the throat and lungs.

The bad taste and odor have been taken away, the oil itself has been partly digested, and the most sensitive stomach objects to it rarely. Not one in ten can take and digest the plain oil. Nine out of ten take SCOTT'S EMULSION and digest it. That's why it cures so many cases of early consumption. Even in advanced cases it brings comfort and greatly prolongs life.

See and ask all druggists. SCOTT & BOWNE, Chemists, New York.

## "Honest Labor Bears a Lovely Face."

There is nothing more pleasing to look upon than a hearty, ruddy face, gained by honest toil. They are the saving of the nation, these toilers of both sexes, struggling for daily bread.

Pure blood makes them able to keep up the daily round of duty at home, shop or store. If the blood has a taint or impurity, or a run down feeling comes on, the one remedy is Hood's Sarsaparilla, America's Greatest Medicine for the blood.
